

MATTHEW J. BURKE

721 Greenwood Ave, Wilmette, IL 60091 • mattburke1999@gmail.com • 847-609-1311

Skills: Python (8yrs) (flask, Django, FastAPI, tkinter, pywebview, numpy, pandas), JavaScript (3.5yrs) (VanillaJS, TypeScript, ReactJS), C# (2.5yrs) (.NET, ASP.NET), SQL (4yrs) (PostgreSQL, T-SQL, MySQL, SQLite), rust (1.5yrs) (tokio, warp), git (6yrs), WebDev (5yrs)
Interests: Software, Web Development, Machine Learning, Computer Science, Mathematics, Running, Hiking, Camping

EDUCATION

Emory University

Mathematics and Computer Science Joint Major, Economics Minor

Atlanta, GA

Graduated May 2022

PERSONAL PROJECTS

GarminMock

<https://github.com/mattburke1999/GarminMock>

- Built a Flask web app mimicking GarminConnect; parsed .fit files and stored GPS/activity data in PostgreSQL
- Displays workouts with Folium maps, detailed stats (HR, elevation, laps), and multi-user auth with session control

PersonalToDo App

<https://github.com/mattburke1999/PersonalToDo>

- Cross-platform desktop app using React, pywebview, and SQLite; C# service handles task scheduling and alerts
- Supports lists, sorting, filtering, searching, calendar page, and advanced scheduling options for repeated tasks

KeyboardGames

<https://github.com/mattburke1999/KeyboardGames>

- Web game suite with Flask backend, vanilla JS frontend, and Rust websocket server using warp for low-latency play
- Tracks scores and cosmetics; supports skins, keyboard controls, real-time updates, and game result validation

WORK EXPERIENCE

Loyalty Lane, Inc. (a Givex company)

Software Developer

Chicago, IL (Remote)

November 2022-Present

- Develop full-stack features in C# ASP.NET dashboard app; maintain backend logic and JavaScript-driven interactivity
- Work across Azure ecosystem using DevOps pipelines, Functions, Portal tools, and triggers for automation and tasks
- Write and optimize SQL for reports, in-app tools, and backend tasks; manage SPs across Azure and MySQL DBs
- Contribute to internal tools and new features supporting loyalty programs, shopper data, offers, and reporting

Data Analyst Intern

August 2022 – November 2022

- Implemented version control for reporting system and integrated into existing applications using reporting system
- Developed an application with python to validate reports, converting from a manual process to an automated process
- Assist colleagues with writing SQL queries to effectively collect data for generating new reports for clients
- Tasked with cleaning and organizing the data warehouse to make it more efficient and easier to work with

Emory Student Activity and Academic Center

Facility Supervisor

Atlanta, GA

August 2021 - August 2022

- Functioned as a communication liaison between students and members and Athletics and Recreation professional staff
- Maintained security of the building including, but not limited to, the card access entrance and all points of access
- Interacted with approximately fifty to sixty students, faculty, and community members in a normal shift

Storage Squad at Emory University

Operations Manager

Atlanta, GA

May 2018 - June 2021

- Supervised and coordinated move-out and move-in schedules and multiple trucks during the move-out and move-in process
- Drove a U-Haul truck with students' furniture and personal items between dormitories and storage units
- Helped manage approximately 300 students' boxes and furniture over a one-week period in the Fall and Spring

EXTRACURRICULAR

Emory Cross Country and Track Team

Coach: Linh Nyugen, Hours per week: 20-23

Atlanta, GA

Fall 2017 - Spring 2022

- Balanced a fifteen-credit course load with competition, practices, training sessions, and meetings
- Competed as a top performer on the team placing top seven out of twenty-five members for most races
- Selected to represent my team with six other team members for the UAA conference, NCAA Regional, and National Meets

Run BeCause (Non-Profit)

Founding Member

Winnetka, IL

Fall 2015 - Summer 2018

runbecause.org, Hours per week: 8

- Developed a website that encouraged over 300 community members to register for the race or donate to the cause
- Prepared and maintained financial accounts, budgets, and income and expense statements for the fundraising event
- Donated net proceeds to Juvenile Diabetes Research Foundation (JDRF); \$17,000 in 2018, \$20,000 in 2017, \$17,000 in 2016
